Everything is good

Yes

No suggestion

Nothing

None

All are good

Very well

Satisfied

Overall good

No suggestion

Excellent

....

Everything is perfect

Very good

All are very good

1. Better schedules where everyone can attend lectures(7:15am is early and few students have to travel for long to reach college

I don't think there is any need to change the practice . Teachers give their 100%

In the college few teachers have to behave good with students. Just few teachers otherwise everything is good in the college

Overall teaching -learning experience is good . Teachers are supportive and helpful. From my side all good.

i want them to teach lesson wise..like lesson 1.2 etc they just write the topic an teaches us but we don't know what lesson it is from so we have to find ourselves an its consumes time so that's all

Infrastructure need to be updated. Proper cleaning system should be applied. Various internships and employment skills should be taught.

Use of ICT tools

Organize field visit,use of projectors to elaborate the topics, treat everyone fairly

Good,

Just needs coordination of few teachers.

use of projector,sticking to the topic

There is no suggestions it's overall satisfactory.

1) Library time should be increased.

1. Need to focus on each and every student. 2.Communicate with students friendly. 3. .Need guidance of teachers to prepare exams.

Teacher's are excellent

Time management according to classes, take regular classes

Everything is upto mark..

Student involvement, teaching tactics, providing more information.

Classes should be taken regularly on time. The college must follow the time table. The teachers should behave well with the students.

1) excursion tour 2) more demonstration 3) hand's on training

Information related to internships should be provided to students

No improvement is needed , everything in campus is good and the teaching staff too.

Teaching through projector and online also

In my college teaching & not teaching staff are always supportive..most important thing about the science faculty practicals regular & classes also sometimes teacher are not available they are busy they inform to us..very good about this special LADY College.

The teachers should be more approachable and interactive, different methods should be adopted to make us understand the topics better

Everything is good in the college.

Teachers use different forms of teaching like demonstration and Audio Visual.

Teachers can give more interesting activities during clas and also the assignment

Everything is good and very well

Nothing because all things are excellent

Few teachers should talk to the students in respective manner

I am glad that I have choice this college

1.kindly give more project and real time problem to solve. Industrial problem statements may be given as assignment. 2. Activity based learning may be implemented. 3. Many competitions can be conducted and more informative seminars, lecture by an expert required.

1.Attention to all students 2.listen to students

very well

1. More interactive session needed while teaching. 2. More field visit and educational activities are expected.

It's good teaching, we are unstudied,

Students should be taught by using smartclasses such as projectors and technological devices etc.

College should take students for more field visit so that an industrial approach develops in students.

More site visit,

It's good

We enjoy field visits... I wish there were more such visit every week

Teaching is good.

Every thing is good

There is no such suggestions

Teachers should be more approachable, Classrooms should be renovated well and Teachers should teach properly

Even it is satisfactory but There will be more site visits and study tour should be held for better learning the concepts practically

Can have more practical experiences, site visits, etc

Our college is the best 👍 100

Teachers should have a proper communication with students .2 identify their strengths n weaknesses and alot them work accordingly .3 should explain something when we are stuck somewhere

Support, increase, helpful

Interactive learning, use of technologies, encourage cooperative learning

Overall it is good

Giving more time for completion of assignmentss so that we students can give more thoughts to our designs

The overall teaching method is good. No improvement needed

It's can be good better best.

Communication is must

1. I observed that our teachers always cover whole syllabus very deeply, so i m satisfied with that. 2. We got lots of knowledge by our teachers from their teaching style

Teachers are always helping and kind.Good learning experiences nothing, all good.

- A more practical approach can do wonders - Site visits - providing internships opportunities

Teachers should listen to the students problem patiently

Overall it's good

Overall its good

Flawless

Try to teachers teach projector.

On site knowledge should be given

1) Teachers are always helping and kind. 2) Staff plays important role. 3) Proper facilities and good learning experience.d.

More site visits for better learning with live examples

Cheer up the students for new curricular activities.

Not required

Nil

All well

Everything is good

All classes should be conducted on daily bases and conducting providing proper notes to students

Assignments must be explained with reference or examples

1 . Take test weekly. 2. Take discussion classes

1. More e-content can be used, which helps in better learning. 2. Field visits can be done, for practical learning. 3. The courses can be taught in a manner that is relevant in the present times.
