No.

Use better graphics and visual media to engage students well. ... Try to reach every student and ask for their doubts. ... Make teaching a two way interaction.

Good teaching

None

Overall good

Non

Nice

Very good

Follow time table, have compulsory attendance, interact more

Inform students about more career options , provide career counseling for students

Concession of admission fee

Do provide internships and field visits.

Have to take revision

Everything is best

The overall teaching - learning process is very good. Institution provide many opportunities to learn and grow .

1.we want one kind of smart teaching boards.2.And they can also use another many different way of teaching because of we can learn in seconds that like graphics way too.3.how to learn or memorize anything in exams duration.,etc

1) Use better graphics and visual media to engage students well. ... 2) Try to reach every student and ask for their doubts. ... 3) Make teaching a two way interaction

1) Use better graphics and visual media to engage students well. ... 2) Try to reach every student and ask for their doubts. ... 3) Make teaching a two way interaction.

nil

don't need

some students is not able to attend class because of early morning classes

Use more digital tools for clearing the concept

I think classrooms must be equipped with modern technologies for learn faster and remember more

Actively improve each and every student, they should make it interesting while teaching, measure every student equally

1. I strongly agree with the teaching method of our professor. 2. More internship should be introduced., 3. More concentrate on communication skill and others tooo.

Doubt clearing classes, using digital technology in teaching, student teacher interaction

Learning from projector 2) try to reach every student 3) make teaching A two way Intraction

It is already great.

Satisfied and very good teaching staff

More projectors need to installed and faculty for few subjects to be filled

1. Internship opportunities must be provided. 2. Establishment of student societies and clubs, cells etc. must be promoted and practised. 3. The lectures should be conducted so as to increase engagement and interest of the students towards the same, thereby encouraging the students to develop interest in the subject matter, the classroom environment, the college itself etc.

It's good enough

Suggestion (1) improve the placement cell for students (2) improve the study facilities (3) improve sports facilities

Satisfied

No suggestions in my side

Group discussion should be taken whenever is necessary

Theach on LCD projector to Arts students also.

1. Kindly give more projects for better understanding and knowledge 2. Conduct more seminars for clearing of doubts and difficulties of students 3. Give more sample questions for thoroughly preparation for exams

Every thing is good

1) Use better graphics and visual media to engage students well. 2) Try to reach every student and ask for their doubts. 3) Make teaching a two way interaction.

Doubt setion, regular class ,and practical

No improvement

Teacher are explain each and everything about their subject

My observation is regarding the clg that In our semester 2 exam the centre is not good there are teachers who allows students to cheat in exams the center is not good at all. In that center the teachers don't even check the students the teacher seats and play phone and all the students do cheating except me . I don't will nice to be in thi clg.. I thought that the center will be strict but it is not. I hope that you read this and take a action on it

Even though some students have been able to attend a field trip according to their particular subjects, some of us aren't been taken to any such activity. It should be included for each and

every student.

Every thing is perfect....but teaching and learning process should be more better.

E

888

There should be separate subjects of spirituality for the students. Teacher's could be more as kind of school teachers. Should give more attention to the practical experiments.

Respect the all students and teachers behaviour same with very one not partially. Sometimes listen to student what she want to give us

Teachers don't even bother to come to teach

Communication facilities with students

Nothing. They are good enough.

1) Regular and proper classes should be taken, 2) digital ideas should be used for study 3) study material should be provide to students to study for exams

Library could open a little early in the morning.

Full marks should be given by teachers in internals .

Teachers should make use of participative teaching that engages students.

Lab equipments should be updated, there should be a good assigned teacher for every subject (not like one teacher is teaching both papers to every year), the should be field visit (for example students of microbiology n Biotechnology should be taken to food factories and research centers.

Best learning, good teaching staff , better learning

1:the Institute can't take any other activities .2 : our college need to be better 3: one who lives far away should have bus facility.

Students performance feedback must be given , technology advancement necessary, otherwise education is the best

Teacher should be nice and humble with students, many times we ask doubts but they don't clear our doubts saying what you were doing at the time i was teaching and sometimes directly refuse by saying I've already taught this in class , teachers do partiality

No suggestions. The teaching was good.

My institution is to excellent

1.The Teaching staff is very supportive and dedicated. 2. Classes occurs in regular basis. 3. Syllabus Completes on time.

Excellent

Little bit improvement is required in practicals other than everything is going good

My experience is good

Checking work, repeting lessons, support

I have no suggestions.

N/A

use of ICT tools such as LCD projector, Multimedia, etc. while teaching should be increased so that we can visualize the concepts easily.

May this learning give the best results for our future

Courses should be more research oriented

Try to reach every student and ask their doubts.

It was good ,chemistry teacher are very good . Teachers try best and explain more and more about that that help to improve my chemistry and fun .All other teachers are also good they try the best way that help as to learn new things and make easy for all of as.

When there are ICT tools are available then teacher should make use of them to teach us, teacher should take test because of which we prepare for our exam .

Need introduction of employment skills and courses.

Teaching quality excellent, all are best teachere

Timings should be changed ,soft skills should be given more imp ,need for prof.in dept of psy

1)Try to reach every student and ask for their doubts.2)Use better graphics and visual media to engage students well.3)Make teaching a two way interaction.

Want a increase in ict tools

In promoting intership , student exchange and fields visit opportunities for students .

1. Use of technology especially in the practical subject like geography. 2. No. of teachers should be increased in the college so that teachers could devote more time to students and so much more. 3. Our course (BA) need to be updated.

Information should be up to date

....

Provide Practical knowledge and Personality Growth. Also they should take regular classes.

Taking students to field trip to learn more about the subject.

Verry well

Very well

First they should used projecters and secondaly they should motivate us to come forward
