.....

No suggestion

Very good

Agree

Everything is good

No suggestions

better graphics and visual media to engage students well. ... 2) Try to reach every student and ask for their doubts. ... 3) Make teaching a two way interaction.

Stop doing partiality

1) change in schedules 2) more focus on skill development

Not at all

The overall teaching learning experience in my institution is very good

First all at least appoint teachers for every subject. Just by asking students to be regular to clg without even engaging class.

Good tacing

...

Every teacher is good in her own experience and shares the same with the students

All teaching staff are very good and helpful

I think they should talk about answer writing and course rather than going out of the context and talk about something else

.....

Teacher's should update students about further activities and classes previously, uniform should be compulsory and no makeup should be allowed campus should be cleaned (before students as arrive) and each every review should be taken seriously and action should be taken as soon as possible

Verugood experience

Nothing to improve everything are just perfect

Nice

My suggestions would be they should cover the syllabus before the exams, and if students are giving presentations then they should explain those topic which will help the student to learn and understanding the things at the same time, in practical teacher should explain all the procedures for once so that we can understand what we have to do exactly.

1.open conversation should be provided between students and teachers to express the thought process about our course 2. To know discover students potential by observing them 3. To connect with students

Improve teaching

LAD

Requires cleanliness

There aren't any suggestions from me .

1. Basics should be clear 2. Notes should be provided 3.

Best

To maintain decorum of the institutions

Teachers should be more friendly.

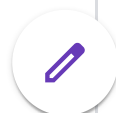

This process can help our teachers and give them a new hope and support from students
thank you

Try to reach every student and ask for thier doubts

They have to use projectors

1.More interaction between teacher and student is required 2. College needs to look towards the infrastructure mainly in the parking area and washrooms to be specific 3. Their are digital boards in the class rooms but they are never used

1.teachers should also encourage hindi/marathi student to speak english without any comment because they belong to rural areas 2. Teachers should strongly enforce

students specially unconfident students to take participates in all curriculum activities
3. teachers should have to spread more awareness about girls safety i.e. rape, acid attacks, kidnapping, molestation, domestic violence, etc.

1. Hire teacher with proper education background for students

DOUBT SOLVING SESSION after each lesson, Alternative formulas for formulations, an answer key must be provided for last years question paper.

Experienced teachers staffed, excellent teaching skills

Yes

no suggestions

Nothing it is already a very well

Too good teacher staff. Very nicely understand

1. Teachers should taken students softly. 2. Teachers should understand students situation of they are saying something. 3. Teachers should be attentive towards students question.

Biotechnology lecturers do not take lectures at all, no proper guidance of internships and better opportunities, there is not at all fair evaluation.

The overall teaching is satisfactory but the use ICT tools to be more often.

Kindly give more project and real time problem to solve. ... Courses can be more research oriented. ... New technology monthly updates can be given.

1) Use better graphics and visual media to engage students well. ... 2) Try to reach every student and ask for their doubts. ... 3) Make teaching a two way interaction.

Try to complete course on time

Proper distribution of work. Less use of digital media by students for learning purpose. More focus was given on hand written notes and assignment instead of using digital media for concept clearing.

The overall all quality are good.

Teacher's ko time table follow krna chahiye Jo room number ho waha btana chahiye 2 agar teacher present na ho to students ko inform krna chahiye 3 pdhaya huwa agar hum puchhte hai to achhe se btana chahiye

Teachers should use advance technology for Teaching purpose

To understand children,clinliness

- Teaching quality is satisfactory

--

Please improve the furniture of the collage &the walls of the call which are leakageing in the rainy season during the classes

1. Better infrastructure and sitting arrangement is needed. 2. quizzes and game sessions related to syllabus will engage the students more and will be helpful in remembering few important topics. It might also create a competitve environment.

1. Chemistry and zoology teachers are good and are punctual with their tests and assignments and teachings except microbiology. They need to improve a lot. Thank you

Explore new outcomes regarding the syllabus

Teaching method is very interactive

They should support the students who are not that much good but yet trying.

Lecturers should give assignments on each unit that they have completed recently.

1.College Timing 2. Sitting arrangement 3. Change college uniform

Teaching and learning is Good. But when it comes to Office Staff they are very bad. They don't give us things on time for scholarship. Office staff are not Cooperative.

No needed

Yes it is the best college and teachers are very cooperative and supportive

1) Practical use of concepts and its use in life or industries. 2) Providing knowledge about how to earn, investing etc ie financial basics. 3) Preparing students for interviews, jobs and technical skills is very important. 4) Experience of new technologies or making aware about new rules and technology is also important.

1) Kindly give more project and real time problem to solve. (2) Courses can be more research oriented. (3) New technology monthly updates can be given.

No everything is good

Making teaching two way interactions

Teachers should change the way of teaching

1 point - use of light projector while teaching . Through , where teachers can use diagrams and videos for explanation Which give more clear and precise understanding to students.

Teaching should not belong only to a room. You can invite them to the library, computer lab etc.

Nil

Excellent other teaching

Everything is good.

Teacher should use more ICT tools for teaching students.

Give examples more

The best

Already good not to improve anything

Improve the ICT tools , fix the projector,

The teacher teaches very well. I am satisfied.

No need

Use of projector is not used in teaching sense
